Education

May 2014 **B.S. in Computer Science**, *Trinity University*, San Antonio.

Experience

July 2015 - **Technical Freelancer**, *Self-Employed*, Houston, TX.

- AgelessCures.com, WordPress Development and Customization
 - HTML/CSS/PHP Custom Styling (using child themes and PHP template overrides)
 - Led WooCommerce Site Migration Plan from legacy CMS ZenCart
- Skill Development
 - Created PowerShell script that RegEx parses Outlook Email Attachments and saves contents in Excel
 - Personal Drupal Blog styled with CSS implementing Drupal Parallax Module, managed with Drush
 - Resume written with \LaTeX and compiled to HTML using nanoc (Ruby compiler)

June 2014 - **IT Consultant**, *Pariveda Solutions*, Houston, TX.

June 2015 Developed MVC-type projects for web and cross-platform apps for clients in multiple industries.

- Internal HR Angular.js Web App Support
 - Updated business logic of Angular.js internal web application to make better use of data binding
 - Improved image loading by extending Angular directives to access third party file hosting REST API
- Xamarin Cross-Platform App Development, Medical Delivery App (XAML and C#)
 - Completed customer and driver user stories with heavy use of MVVM two-way data binding
 - Implemented client provided form validation system with unit testing
- MVC Kendo UI Rice DNA Comparison Web Application (C#)
 - Created Server and Browser form validation with unit tests
- Business Intelligence Experience, Qlik Sense
 - Imported and visually represented analysis of company revenue and employee data
 - Demonstration of reports led to Pariveda's adoption of Qlik Sense for company-wide metrics reporting
- Migrated internal legacy console applications to AWS cloud instances
- SharePoint Development (ASP.NET, C#)
 - In a small team, created employee portal intranet with SharePoint 2013/Office 365
 - Styled front end of a SharePoint 2010 portal for mobile use and used JavaScript to enable scrolling for iOS devices
- Composed SQL queries to identify duplicate records in client company acquisition

August 2013 - **Notable Coursework**, *Trinity Dept. of Computer Science*, San Antonio, TX.

May 2014 Senior Software Project

- Leveraged HTML5, CSS, JavaScript, and Jasmine testing framework with an agile approach to create a web and mobile interface for a commercial online file transfer service
- Intro To Game Design
- Designed and developed, with scrum methodology, computer games using Unity 3D and C# scripting
 - Composed original music for games and implemented sound effects programmatically

Accomplishments & Interests

May 2010 **Eagle Scout Award**, *Boy Scouts of America*, San Antonio.

- Refurbished, networked, and configured 20 computers for a nonprofit child development center
- Solicited donations of 45 computers and 57 monitors; negotiated collection with a local E-waste recycling center

Performance & Related Disciplines, *Music*.

- Accomplished in violin, viola, mandolin, guitar, piano, and singing
- Performed and/or traveled with music groups of varying styles (folk, rock, classical, acapella) and sizes (solo, chamber groups, choral/orchestral)
- Led marketing, booking, and online artist representation duties
- Radio DJ for KRTU 91.7FM. Scheduled and broadcasted music as a radio personality weekly
